

Dear Parents,

Thank you for helping us with our green initiative by recycling your empty ink and toner printer cartridges, used cell phones, and small electronics from home and work.

Remember this is a year round recycling program and all the proceeds of our recycling efforts are being donated to **Christina M. Eve Elementary School**.

Again, thank you for helping us reduce electronic waste from our landfills while helping our school reach its fundraising goals.

### The Recycling Bin is located in front of the Main Office

Items we collect: New or empty printer inkjet and toner cartridges, cell phones, cell phone accessories, laptop computers, working MP3 players, working digital cameras, working handheld game systems, working GPS devices.

How to properly place recyclable items into Dade Recycling Bin:

- Place used ink and toner cartridges without their original cardboard box inside the bin.
- Leave surplus & unused ink or toner cartridges in their original sealed boxes.
- Put cell phones and small electronics inside a plastic bag then place them in the bin.

Privacy Policy: Dade Recycling will not sell or allow an affiliate or third party to use any of the information provided by program participants for the purposes of solicitation.
